

The IIA - UK and Ireland is the only professional body focussed exclusively on internal auditing and we are passionate about supporting, promoting and training the professionals who work in it.

Why not give your internal audit team the edge? A group membership scheme gives them access to technical guidance, specialist qualifications and the latest internal audit news and views. Offering IIA membership to your team demonstrates your organisations commitment to their professional development and gives them the tools to ensure best practice in their work in accordance with the *Code of Ethics* and *International Standards for the Professional Practice of Internal Auditing*.

Current group scheme members include:

200 + Members	150 – 200 Members	100 - 150 Members
