

Get qualified with the Chartered Institute of Internal Auditors

In today's challenging business environment, it has never been more important for internal auditors to get qualified

Studying towards an IIA qualification provides a structured pathway of training and development for internal auditors at all levels of experience. With the IIA you will be studying a professional qualification that is seen as a mark of quality by employers.

As a qualified internal auditor you will gain professional recognition through the use of designations and the support of the only professional body dedicated to the internal audit profession. We have a range of qualifications aimed at all levels up to Chartered Internal Auditor, and accelerated routes available for those with experience and other qualifications. See below to find out which is best for you:

IIA Diploma

For those new to internal audit or practising internal auditors seeking development and recognition.

The acknowledged benchmark for the internal audit profession, based on internationally recognised standards, the IIA Diploma provides internal audit practitioners with a comprehensive and practical understanding of internal audit, risk management and control and governance. Delivered via tuition and with assessment by exam and experience journal, the IIA Diploma, leads to the PIIA designation and is the first step towards becoming a Chartered Internal Auditor.

IIA Diploma - accelerated route

For qualified professionals with significant internal auditing experience

The IIA Diploma - accelerated route is available for those with a post graduate qualification and three years' recent internal audit experience. With assessment through a case study exam and an experience journal, the IIA Diploma - accelerated route can be completed in around six months, leads to the PIIA designation and is the first step towards becoming a Chartered Internal Auditor.

IIA Advanced Diploma

For qualified internal auditors seeking to achieve Chartered Internal Auditor status

The most advanced IIA qualification. For aspiring or experienced managers in internal audit who need to engage with senior executives on strategic issues and provide challenging and sometimes provocative insights into risks and internal controls. With assessment by exam and experience journal, IIA Advanced Diploma holders are Chartered Internal Auditors (CMIIA designation). The hallmark of excellence.

Get qualified with the Chartered Institute of Internal Auditors

IIA Certificate

For those new or seconded to an internal audit team who need to develop practical skills

The IIA Certificate is an accredited training programme combining theory and practical skills to provide a comprehensive overview of the internal audit function. Perfect for new entrants to internal audit or for specialists who have been seconded to an internal audit team. Delivered through a series of four 30-hour learning programmes, the IIA Certificate can be tailored to help you achieve your career goals and leads to the IACert designation.

IIA IT Auditing Certificate

For qualified internal auditors specialising in IT auditing

A specialist certificate for qualified internal auditors who wish to develop expertise in the particular threats and vulnerabilities associated with IT and information systems.

Tuition and support for IIA students

The IIA offers a unique range of tutorial, revision and support services for students working towards its qualifications. IIA tuition can be tailored to suit your own personal learning style, and to fit around your home and work life. Both online distance learning and face to face tuition packages are available, as is a wide range of support materials including revision workshops. Other tuition providers are also available.

"Studying for the IIA's qualifications helped give me a strong theoretical and practical understanding of the profession, and enabled me to progress in my career. I found the courses informative, challenging and interesting. The revision schools were extremely useful, with enthusiastic and knowledgeable tutors and provided a good opportunity to meet other students and internal auditors in a supportive environment."
