

16 January 2024

IPPF

Chartered Institute of Internal Auditors

The IPPF is in a transition period.

Released 9 January 2024 the restructured IPPF includes the Global Internal Audit Standards™. The Standards will become effective on 9 January 2025, 12 months after their release. Early adoption is encouraged.

Conformance is required from the effective date. This provides an opportunity to read the new Standards, understand what they mean for you and your internal audit function and make any necessary changes before the Standards become effective.

2024 IPPF

Global Internal Audit Standards

- 120 pages, new 2024 **Global Internal Audit Standards**
- (please note, this document is now printable - a copy/paste version will follow shortly)
